What is the I-100SS?

The I-100SS is our entry level, stainless steel indicator, which it is quick and easy to use for accurate weighing. This indicator allows the user to obtain high accuracy weights.

This easy to use indicator can be paired with a Marsden bench or platform scale to enable simple weighing with a wide range of functions available to improve processes and save money.

Clear and easy to read

The I-100SS combines tough, rugged build quality with easy to use features and a bright, bold weight display making it perfect for use in all environments.

The indicator is primarily designed for easy buy precise check weighing. Therefore, it has a bright and clear 25mm LCD display, which can easily switch between lb and kg readings.

Wipe-down construction

The I-100SS is suitable for application in a wide range of environments due to the IP65 rated housing which means that the scale can be regularly wiped down.

IP65 rating means that the scale is now only completely protected when it comes to dust particles, but the scale can also be wiped down regularly in order to keep hygienic, with no issue being caused to the scale.
