I-200: The easy to use indicator for wet and damp environments

Taking weight readings from a **high accuracy weighing scale** allows you to **stay efficient** and **keep costs under control**.

The I-200 indicator deliver all this and more, with a range of functions that are quick and easy to use, and available at an affordable price. Plus with IP67 protection it can be used in washdown areas.

Display readings bright and clear

A **bright LED display** on the I-200 indicator means weight readings appear clearly as soon as a weight is placed on the scale.

IP67 certified for washdown environments

IP67-certified protection means this stainless steel indicator can handle being washed down after use, or daily use in damp or dusty environments.

Simple features can improve your processes

Use **Tare** to remove the weight of an item such as a pallet, for an accurate reading of the goods on the scale.

A **wall bracket** is provided for mounting the indicator.
