- Covered by the Marsden 8 year warranty

Simple weighing

The M-110 is a simple and easy to use column scale, constructed to the highest quality to ensure that it is suitable for weighing patients up to 250kg.

The scale has been designed to be hard wearing making it ideal for heavy use in busy traffic areas, such as general wards, outpatient departments and busy GP surgeries.

Optional connectivity options

The M-110 is available with either Bluetooth or Wi-Fi connectivity to ensure that our customers are able to transfer data seamlessly or input into EPR systems.

We would simply need to insert a connectivity module at the time of order and then provide you with our standard protocols for easy and simple integration into your existing system.

Easy to use

The M-110 features from our best-selling DP-3810 indicator. This device features from a full numeric keypad for easy BMI calculation and simple function keys.

The On/Off button ensures that you have full control over the device and you can prolong the battery life. Hold enables you to gain readings for unsteady patients and Tare allows you to deduct unwanted weight.
